Librarian's area

The screenshot shows the 'Librarians' section of the Taylor & Francis Online website. At the top, there is a blue navigation bar with the Taylor & Francis logo and the text 'Taylor & Francis Online'. To the right of the logo are links for 'Log in', 'Register', and 'Cart'. Below the navigation bar is a search bar with the placeholder text 'Enter keywords, authors, DOI, ORCID etc' and a search icon. The main content area is divided into two columns. The left column is a sidebar titled 'In Librarians' and contains a list of links: '> How to register', '> Authentication', '> Your library catalog', '> Link resolver', '> Usage reports', '> License information', '> FAQs', '> Contact us', '> Pricing information', and '> Development initiatives'. This sidebar is circled in red. The right column is the main content area, titled 'Librarians' in a large, bold font. Below the title is a sub-header: 'Welcome to the Librarians' Area on Taylor & Francis Online.' This is followed by a paragraph: 'We have designed Taylor & Francis Online in collaboration with librarians, researchers, and scholars, and are dedicated to meeting the varied needs of our user communities. Our platform brings knowledge to life with:' and a bulleted list: '▪ A clean, intuitive user interface', '▪ Enhanced discoverability for journals and reference works'. Below this is another paragraph: 'We look forward to helping you make the most of the exciting tools that Taylor & Francis Online has to offer. We have put together some useful information to help you get started:' and another bulleted list: '▪ How to register', '▪ FAQs', '▪ Contact information'. At the bottom of the main content area is a paragraph: 'You can also connect to our dedicated librarians' site, Librarian Resources, which provides you with information about all of Taylor & Francis's products and services, the latest news, and promotional materials to help you promote access in your library.' To the right of the main content area, there is a red arrow pointing left towards the 'Register as institutional administrator' text.

A giant early Pleistocene bird from eastern Europe: unexpected component of terrestrial faunas at the time of early *Homo* arrival

Nikita V. Zelenkov, Alexander V. Lavrov, Dmitry B. Startsev, Innessa A. Vislobokova & Alexey V. Lopatin

ABSTRACT

Giant birds, comparable in size to elephant birds and moa, have never been reported from Europe. Here, we describe a femur from the lower Pleistocene of the north Black Sea area (Crimea) that is referred to *Pachystruthio dmanisensis*, comb. nov., a giant bird with an estimated body mass of about 450 kg. This value makes this extinct bird one of the largest known avians (comparable to *Aepyornis maximus*) and the only bird of such giant size in Europe and the Northern Hemisphere in general. In contrast to very large insular birds, *Pachystruthio dmanisensis* was a good runner, which may be explained by its coexistence with large carnivoran mammals. *Pachystruthio dmanisensis* and associated assemblage of fossil mammals are shared with the Dmanisi locality in Georgia (~1.8–1.7 Ma); thus, this giant bird was likely a typical component of eastern European faunas at the time of early hominin arrival. We suggest that *Pachystruthio dmanisensis*, together with early *Homo* and a variety of mammals, reached the northern Black Sea region via the southern Caucasus and Anatolia, because the older (Pliocene) finds of this fauna are known from Georgia and Turkey.
